The group held a 8 week Mindfulness Class, which the Community builder was successful in getting a grant to pay the tutor.</p> <p>The Sewing Group which provides N.H.S and local nursing homes with Fidgit Aprons for people with dementia. Again the community builder assisted with a grant application which was successful.</p> <p>The Community builder is involved with the Nursery and School with garden projects with producing healthy eating fruit and vegetables.</p> <p>The Community garden which was overgrown, and the community builder with the help of Ruth Maguire MSP, arranged to have Beechams apprentices involved in tidying the garden.</p> <p>The Association at this time is in talks with NAC regarding an Asset Transfer of a piece of ground between Maree and Morar</p>

	<p>Place to turn it into a Sports field for use by all the local football teams, nursery, school, and groups within the centre.</p> <p>The reason the Association are applying for a grant is to continue this work as we feel the Community Builder over the last year has achieved more than we as an Association could have without her hardwork and dedication putting in extra hours when required by the various groups.</p>

## Community Investment Fund Expression of Interest Form

<b>Organisation name</b>	<i>The Ayrshire Community Trust/Trinity Studios</i>
<b>Brief details of organisation</b>	<p>Formerly known as Town Centre TV (TCTV), Trinity Studios is a project run by The Ayrshire Community Trust (TACT).</p> <p>Our creative digital media hub is based in Trinity Church Hall in Irvine's town centre. We teach digital media skills to groups and individuals and provide volunteering opportunities. As TCTV, we created a range of videos, graphics and animations to promote community events and activities, support third sector organisations and advertise local businesses on the 'Big Screen' at Bridgegate Square.</p> <p>As the 'Big Screen' is no longer operational, we have been focusing on exploring the many applications of virtual reality technology and have invested in five VR headsets. We have been using the equipment to create and demonstrate the benefits of immersive VR environments and highlighting the positive effects it can have on health and mental wellbeing.</p>
<b>Locality</b>	Irvine
<b>Amount requested</b>	£24,000.00
<b>Brief overview of proposal</b>	<p><b>Irvine Heritage Trails – VR Tours</b></p> <p>Individuals who are experiencing social isolation and loneliness is a major concern across Irvine and North Ayrshire. Implementing a range of services and methods to help reduce this is a challenge being met by the North Ayrshire Health and Social Care Partnership and other local organisations.</p> <p>To augment these valuable services, we are confident that adding VR experiences would provide an innovative way of allowing people to feel connected to their local community and also explore the wider world.</p> <p>In order to do this, we would like to propose a digital heritage project in the form of VR tours*. We'd like to create an interactive map of the Irvine area showing 'hotspots' that can be fully explored using a VR headset. (<b>Note:</b> a PC, laptop, tablet or smartphone could also be used). Each 360-degree scene would have interactive overlays (text, videos, photos, audio and web links) to provide an immersive experience and allow the viewer to learn information about Irvine's past, present and future.</p>

	<p>To help design the VR trails, we would propose to connect with a range of local organisations such as:</p> <ul style="list-style-type: none"> <li>• North Ayrshire Health and Social Care Partnership</li> <li>• North Ayrshire Heritage and Cultural Services</li> <li>• Fullarton Community Hub</li> <li>• Vineburgh Community Centre</li> <li>• Wellwood Burns Centre and Museum</li> <li>• Scottish Maritime Museum</li> <li>• Garnock Connections</li> <li>• HOPE/CLASP projects</li> <li>• Local schools</li> </ul> <p>To reach our intended audience, we would like to provide VR sessions at existing services/activities being run in the area (e.g. youth groups, lunch clubs, health and fitness classes, learning/interest classes, Men's Shed etc.). In addition, we would hold weekly sessions in our fully accessible studio.</p> <p>We feel that exploring these heritage trails would encourage people to reminisce and share their stories and memories of specific places in Irvine. This would stimulate conversations with family and friends. With their permission, we would like to record these stories and incorporate them as audio recordings within the heritage trails. As the project progresses, we could update the scene locations with new audio clips of people's memories. This ensures that the content doesn't stagnate but would constantly evolve over time – thus encouraging repeat visits.</p> <p>Added benefits:</p> <ul style="list-style-type: none"> <li>• Volunteering – unique opportunities for local people (promoting citizenship)</li> <li>• Tourism - showcasing Irvine (and potentially North Ayrshire) to a global audience</li> <li>• Archiving – providing an important digital record of Irvine's residents, buildings and locations for future generations</li> </ul> <p>We'd like to apply for funding to allow us to increase our staffing levels, purchase high quality VR camera equipment and help cover running costs and travel expenses for the duration of the project.</p> <p><i>*We have created a short VR tour to illustrate the concept of our proposal. We would be delighted to give a demonstration if required – please contact us to arrange a suitable date and time.</i></p>

## Community Investment Fund Expression of Interest Form

<b>Organisation name</b>	
<b>Brief details of organisation</b>	Irvine special events forum was founded in 2013. A committee came together to enable Irvine town to have Xmas lights in the town of Irvine. And with annual switch on event for all of the community.
<b>Locality</b>	Irvine
<b>Amount requested</b>	30,000
<b>Brief overview of proposal</b>	The lights that we had purchased back in 2013 are unfortunately no longer of use and not working anymore after we got them last tested last year it would have cost more to have them fixed than replacing them. In 2019 we hired them in on a one year lease. This year we would like to propose buying our lights out right as long term leasing is going occur us trying to find the money every year. We have approached funders and private sponsorships but whist happy to support an event not willing to fund lights. The people of our locality have enjoyed the Christmas events in the past with over 14,000 people attending the first launch of Irvine special events forum we would like to continue to serve the people of our locality and allow there Christmas to sparkle.
