## Traffic and parking

### Update

Sub group meeting took place to discuss radar results. Discussion took place around proposals to have a TRO for main town. This has to be taken to full LP to discuss.

Louise met with Shona Thorne to discuss the possibility of the TRO in Main St. Shona raised her concerns for some of the traders. She also stated that there seemed to be a bit of confusion around the questions that were asked in the consultation. Louise agreed to take to the partnership the proposal to go back out to consult on the specific question around 'would you agree to the Main St being closed to ALL traffic between the hours of 10.30-4.30?'.

Shona also suggested that some changes to the Disabled parking bays would be helpful, particularly due to the fact that the bays behind the doctors mean they have to walk down hill.

## Housing and community (environmental issues)

### Update

Sub group met to finalise plans for outdoor gym. Detailed plans for this will be put up in noticeboard and library. Ian Hollis (streetscene) has been supporting the group with procuring for outdoor gym. Hoping that the equipment will start being installed quite soon after Easter. Will be looking to have a launch event a couple of weeks after the equipment is installed.

Currently supporting an individual from Fitba4u who is in financial hardship and requiring white goods for their home. I am looking into a community care grant for this individual and helping look on social media etc for free appliances. With these appliances installed he would then be able to have visitation with his children at home.

Contacted Nicholas Blair from ZM Architecture about providing community benefit Support to Eglinton Growers. Response has been slow and I am now awaiting an appropriate time for me to call and discuss further.

Supporting Eglinton Growers main and subcommittee. The main committee are focused on connecting the allotments better with the local and wider community. Therefore, we will be working on an annual events calendar.
