Update

Literacies

Literacy support is available in both employability hubs in 1-2-1 sessions and with progression into a group. Stevenston group is full and to avoid a waiting list a new group is proposed for Ardrossan. Effort is being made to track previous service users to ensure they have continued into a positive destination.

Digital literacies

Digital First Aid

In response to needs expressed by employability hub and group members a new Digital First Aid session is now open in Ardeer. Initial feedback is that those taking part have varying needs relating to the use of phones and certain aspects of online banking and shopping rather than a traditional course ie how to connect a WIFI printer to phone etc. Tutors are developing a report on the issues being presented.

Open University (Open Learning)

Where possible, learners are being introduced to the OU open learn range of free courses and supported to access additional knowledge "Learn to Learn" using online resources without the isolation this model of learning can cause.

Whitlees Community Association (Local support Hub/Job Club)

Locality team and CLD staff have worked with Whitlees Community Centre association and Ardrossan Youth Centre Committee to provide a new local support hub based in the Ardrossan Youth service. This hub will provide informal drop in support for employability, skills and general issues with application forms and digital literacy problems. Ardrossan youth centre is ideally placed for this model of work. Access to up to date PC's and wifi can help where people have run out of data or don't have access to printers etc. The long-term plan is to recruit and train local community members to deliver this support.

They are also working with the business development team to maximise the income from the nurse's office once early years moves out in June.
