

North Ayrshire Community Support Hubs

If you do not have existing family or community support and need help with things like getting food, making sure you have enough money, getting your prescription or your wellbeing you can get in touch with us.

Our Community Support Hubs are not open for the public to visit but are a base for a small coordination team of volunteers, North Ayrshire Council and Health and Social Care Partnership staff to operate from.

Regular updates on the range of local support available is on our website:
