

<b>Successful in the £1500 Funding Pot</b>			
<b>Name of Group, Organisation, Charity</b>	<b>Name of Project</b>	<b>Locality</b>	<b>Brief Synopsis</b>
Brodick Early Years	Garden Space	Arran	The Green Health Development Fund will help to improve Brodick Early Year's outdoor space for families in our community. Through our outdoor environment, this will promote the wellbeing of children, exploring nature and learning about sustainability.
Saltcoats Link Up	Seasalts Gardeners Open Space Environment	Three Towns	Saltcoats Link Up's Seasalt Gardeners will enhance a number of green or open spaces locally in Saltcoats by planting a range of flowers, shrubs and trees in a variety of locations. It will also grow a wide selection of fruit and vegetables, which will be made available locally through the proposed community pantry, as well as other avenues. These actions will make the area more aesthetically pleasing and welcoming, as well as increase access to good quality fresh fruit and vegetables, in a safe and sustainable way.

Garnock Valley Youth Forum	Garnock Rewilding Partnership	Garnock Valley	The Garnock Rewilding Partnership will help to make the Place Woodlands safer and more beautiful whilst helping the surrounding residents re-wild their own gardens. We want to leave a legacy of positiveness toward Place Woodlands and local green spaces within Kilbirnie.
Arran High School Mountain Bike Club	Winter Won't Stop Us	Arran	Arran High School Mountain Bike Clubs 'winter won't stop us' project will help to continue sharing everyday contact with nature with our young people after school regardless of daylight. Looking after their mental health and wellbeing has never been more important and outdoor activities that nurture the resilience essential for success should not stop during winter. Mini adventures on bikes and looking after their communities' trails go hand in hand year-round.
Scottish Wildlife Trust	Connecting to Nature in Ayrshire	Irvine, Kilwinning, Three Towns and Garnock Valley	Connecting to Nature in Ayrshire will support volunteers to deliver a range of conservation tasks on local greenspaces, such as planting locally-grown trees, managing wildflower meadows and improving paths. These sessions will encourage more people to spend more time experiencing nature and the outdoors, keeping physically active and improving mental wellbeing. The project will also link with and build capacity in other community groups and projects.
St Peters School	Gardening for	Three Towns	St Peter's Parent Council is going to provide gardening

	Growth		opportunities for the children at St Peter's primary school and nursery. The children will learn to plant and care for vegetables in the new polytunnel at school. This will increase the opportunities that they have to interact with nature, and they will have opportunities to learn through practical activities. We look forward to working with them and getting the children's hands dirty!!!

<b>Name of Group, Organisation, Charity</b>	<b>Name of Project</b>	<b>Locality</b>	<b>Brief Synopsis</b>
Ayrshire Children's Services CIC	Let's Re-Cycle	Three Towns	The Green Health Development Fund will help some of our most isolated and disadvantage children and young people who have mobility issues, be mobile. This fund will allow these children to have adventures that they never thought possible. They will be able to visit fairy forests, explore beaches and touch the sea, they will plant flowers and grow vegetables. Children whose life were circulated around hard pavements, walkways and viewed from car windows will now be able to explore spaces amongst trees and gardens. We will team up with our community and enable these children to mix and mingle with adults and other children their age, learn new skills and explore nature, most of all build friendships and be treated equally.
Café Solace	Outdoor Education & Activity Project	Irvine, Kilwinning and Three Towns	The Café Solace Outdoor Education and Activities Project will include nature and exercise activities that will provide many benefits to participants' mental health and wellbeing, and create positive effects such as improving mood, reduce stress and anxiety, improve physical health through being more active and help make new friends and build relationships. Learning about their local environment and completing projects to enhance their local area will help foster a sense of community and awareness of the beauty of nature.
The Ayrshire Community Trust	Eglinton Community Garden Collective	Irvine, Kilwinning, Three Towns, Garnock Valley and North Coast	Eglinton Community Garden exists to provide members of the local community with volunteering and learning opportunities related to growing food. It also seeks to address social isolation and improve mental and physical well-being through gardening and conservation activities thus reducing health inequalities. In general terms, it exists to improve the design and delivery of services, by working in partnership, to maximise the benefits to the community.
Barrmill & District Community Association	Barrmill Assisted Needs Raised Allotment	Garnock Valley	The Barrmill Conservation Group will transform an under-utilised community organic raised allotment into a thriving and productive site for the benefit of local residents, volunteers and visitors alike. This will be

	Project		achieved by employing a session Horticultural Therapist over a year to work with volunteers to allow them to learn the skills to plan for a successful yearly harvest whilst taking time to focus on the positive health benefits of working in the allotment.
