CPP Social Media

M Rae provided Senior Officers with an overview on the CPP social media. M Rae highlighted that the team currently use Facebook and Twitter to promote the work of the Community Planning Partnership, share opportunities to get involved and support the work of individual partners. They provide an opportunity to reach a significantly wider audience than those directly involved in Community Planning structures.

M Rae encouraged Senior Officers or volunteers who operate on a locality basis to follow the relevant Facebook accounts, promote the Twitter account to all those in their organisation who participate in Community or Locality Planning in North Ayrshire, and continue to share any content for promotion and highlight these channels to individual organisational Communication teams.

LOIP 2022

M Rae provided Senior Officer with an update on the plans for the new LOIP.

M Rae highlighted that some of the key themes needing to be taken into account when developing the LOIP. These are:

- Have a focal point for the issues on which the CPP and partners account publicly to local communities
- Understanding of local needs, circumstances and aspirations
- Which themes they prioritise and why

	<ul style="list-style-type: none"> • Should show how CPP partners are deploying resources in support of the agreed outcomes, especially in ways which promote prevention, the reduction of inequalities, and the building of community capacity. • Clearly based on active participation by communities and community bodies. <p>M Rae shared the proposed approach to developing the 2022 LOIP:</p> <ul style="list-style-type: none"> • Drafting a project plan • Pre-engagement with CPP partners • Draw from existing partner plans, strategic approaches and local priorities as well as considering new opportunities and aspirations. • Use best practice in community consultation and establish a Stakeholder Reference Group and consultation mandate, before getting wider community input on the LOIP. • Incorporate other relevant recent consultation responses. • Use a wide range of sources to inform our needs assessment. <p>M Rae proposed that it would be useful to meet with partners individually to discuss their aspirations for the 2022 LOIP.</p> <p>Partners agree this approach.</p> <p>T Correia highlighted that for the LOIP to have real value it is important to note that what we can do as a CPP collaboratively will have more value rather than what Partners are individually responsible for.</p> <p>M Breen advised that individual conversations have been useful previously and suggested possibly setting up a special meeting to focus on the work of the 2022 LOIP. M Rae confirmed that she will schedule one to one meetings with partners over the next month and following these conversations, she will confirm whether scheduling a separate meeting will be useful.</p> <p>Annual Review of Terms of Reference, Membership and Appraisal</p> <p>M Rae advised Senior Officer that a few changes have been made to the Terms of Reference, these will be circulated to Senior Officers by email with tracked changes. These will then go to CPP Board for approval.</p> <p>M Rae also advised that a template will be shared with Senior Officers with 5 questions in terms of our appraisal exercise. M Rae encouraged Senior Officers to complete this.</p> <p>LP Priorities</p> <p>M Rae provided Senior Officers with an overview of the recent Locality Partnership priority refresh which took place in June. Partners are asked to consider how they can support the Locality Partnerships with the priorities.</p> <p>Agenda Planning</p> <p>M Rae encouraged Senior Officers to review the decision tracker and advise of any items they wish to be added to a future meeting.</p>	<p>M Rae</p> <p>Noted</p> <p>M Rae</p> <p>M Rae</p> <p>All</p> <p>All</p> <p>All</p>
<p>AOCB</p>	<p>R Arthur advised Senior Officers that Keep Scotland Beautiful had been in contact about delivering Climate Change Training. R Arthur asked Senior Officers whether they would be interested in this being set up. Senior Officers agreed that this training would be beneficial and it was agreed that M Rae would progress this.</p>	<p>M Rae</p>

CPP Learning and Development Plan

CPP Senior Officers Group

7th October 2021

Morna Rae, Senior Manager (Policy, Performance and Community Planning)

1. Current Position

The Community Planning Partnership has an established programme of training and development opportunities, available to all CPP partners. Some of these are also offered to the wider community.

Existing Provision	Current Approach
Workshops on the North Ayrshire context	CPP Team can support with sharing North Ayrshire profiles and statistics, with associated discussion on how this should shape our partnership work. This year these have been provided to Scottish Fire and Rescue officers with further workshops planned.
Community Planning Presentation for Partner Organisations – slide pack for partners to use as part of induction	Continues to be available for partner use.
Shadowing Programme	Acknowledgement that shadowing virtually may not be as beneficial as in person, so this CPP approach has been paused, with planned reinstatement in 2022. CPPSOG and Board members continue to be welcome to have colleagues who are shadowing them join for these meetings.
Community Planning training course	Moved on-line – good range and number registered for 2021 courses. Partners are asked to continue to promote this with staff and volunteers.
Leadership Collective	This is community focused training across a range of topics, the Community Planning Team provides input to relevant themes.
Development Days/conference on specific topics	Agreement that the conference will take place in person in 2022. Online workshops have recently taken place on: <ul style="list-style-type: none"> • Local Police Plan • CLD Strategic Plan

	<ul style="list-style-type: none"> Local Plan Plans – CPP partner workshop plus a community workshop
Community Consultation and Engagement Training	Latest iteration through community engagement centre of excellence approach.
Community Planning Induction Pack	Shared with new partners on ongoing basis. Also one to one meetings held with new representatives and Community Planning Team.
CPP Terms of Reference	Periodically updated and shared.
Sharing Across CPP Partners - communication	<ul style="list-style-type: none"> Strengthened through locality support hubs Sharing of experience and learning from Covid Twitter and Facebook Website improvements Community book model Chair of CPPSOG 1 to 1 meetings with CPPSOG members Use of health inequalities self assessment Dedicated agenda time at CPPSOG and Board meetings for sharing of developments and opportunities Distribution of weekly update on national policy, publications and research

2. New Opportunities

The following new opportunities are being developed:

- Climate Change training** – In order to develop consistent and increased understanding across partners of their responsibilities and opportunities in relation to climate change it was agreed that training would be sourced from a national agency. This would be met from the budget held by the Senior Manager (Policy, Performance and Community Planning) and discussions are underway on the format and timing of this training.
- Linking in with partners national development opportunities** – There has been a recent increase in the range of national opportunities which are being shared with the CPP Team (such as the Four Nations webinar series). We will continue to promote these amongst CPP partners.

These additional mechanisms have been proposed and discussion by CPP partners on them would be welcomed:

- Extension of individual organisational training/development sessions on specific topics to other CPP partners and the community,

- Blogs from CPP partners and community representatives to increase understanding of their roles and partnership working opportunities,
- Occasional participation of additional officers from CP partner organisations at CPPSOG meetings aligned to the relevance of agenda items, and
- A focus on a particular area of work for the CPPSOG over a period with associated agenda items, resources and training/workshops.

3. Future Plans

Once the LOIP from 2022 is agreed there may be a review of CPP structures and membership to support the delivery of the new priorities. This may well involve new partners or new representatives from existing partner organisations. There may also be new areas of thematic focus for us as a group. All of these factors will shape the training and development needs of the partnership going forward.

4. Proposal for CPP Senior Officers Group

Partners are asked to consider the new opportunities in section 2 and agree which should be progressed, along with any other additional ideas.
